

Clean higher. Stay grounded.

Drone-powered exterior cleaning for commercial and residential properties — buildings, glass, solar and large surfaces, washed safely from the air. No swing stages, lifts or scaffolding.

WHAT WE CLEAN

- Buildings & façades
- Solar panels
- Concrete & hardscape
- Windows & glass
- Warehouses & industrial
- Homes & residential

WHY DRONES

Safer. Nobody works at height — the drone climbs, the crew stays grounded.

Faster. No scaffolding to build or swing stage to rig. Minutes, not days.

More effective. A pure-water rinse dries streak-free and reaches awkward spans.

PLATFORM CAPABILITY

~150 ft

Reach

**300+ sq
ft/min**

Coverage

2-person

Crew

0

Workers at height
